Sensing the future

Overview

Senzit Solutions is an Information and Communication Technology (ICT) solution provider in the Middle East region with its Head quarters in Abu Dhabi and branch office in Dubai. Presence of a team of expertise in the different portfolios of ICT industry helps Senzit to “sense the future” of the ICT industry and its clients in the region. Our ICT solutions allow clients to manage their entire ICT environments smarter, decrease the total cost of ownership (TCO), and increase the availability and robustness of the infrastructure.

Vision

"Sensing the future" - Senzit aims to be a leading international Information and Communication Technology (ICT) service and solution provider with outstanding expertise in services, management, application, consulting and transformation services.

Mission

To create, build and maintain an innovative, reliable and cost – effective strategies, services and solutions that allow organizations to respond rapidly to the market and customer needs and result in long term commercial benefits.

Divisions

New generation technology is shifting to become more integrated than ever. At Senzit we believe in providing our customers with solutions that will help them at work, home and in their community. Creating a diverse, inclusive environment has been an ongoing journey of continuous action. It has been a journey guided by deeply held values. Today, our diversity vision is one of the regional proportions.
